we offer you more

UK We offer you more

The success of elho is based on five elements. We offer more specialism. We deliver more innovations in a wide assortment. We offer more reliability. We deliver more marketing support. And we offer more sustainability. We do this for our clients, for the clients of our clients and – with regard to sustainability – for the world around us.

DE Wir bieten Ihnen und Ihren Kunden mehr

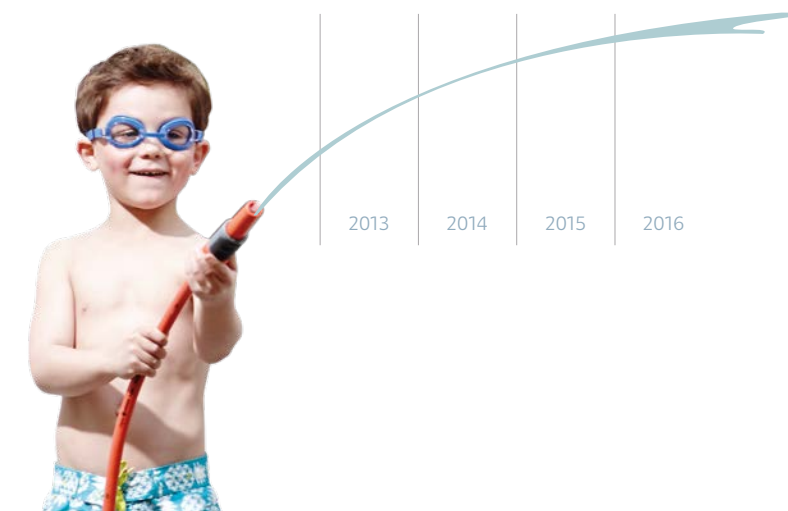

Der Erfolg von elho ruht auf fünf Säulen. Wir bieten eine größere Spezialisierung. Wir liefern mehr Innovationen in einem breiten Sortiment. Wir bieten eine höhere Zuverlässigkeit. Wir liefern bessere Unterstützung für Ihr Marketing. Und wir arbeiten wirklich nachhaltig. Dies tun wir für unsere Kunden, die Kunden unserer Kunden und – was die Nachhaltigkeit angeht – für unsere Kinder.

NL We bieden u en uw klanten meer

Het succes van elho rust op vijf pijlers. We bieden meer specialisme. We leveren meer innovaties in een breed assortiment. We bieden meer betrouwbaarheid. We leveren meer ondersteuning in marketing. En we bieden meer duurzaamheid. We doen dat voor onze klanten, voor de klanten van onze klanten en – voor wat betreft duurzaamheid – voor de wereld om ons heen.

SE Vi ger dig och dina kunder mer

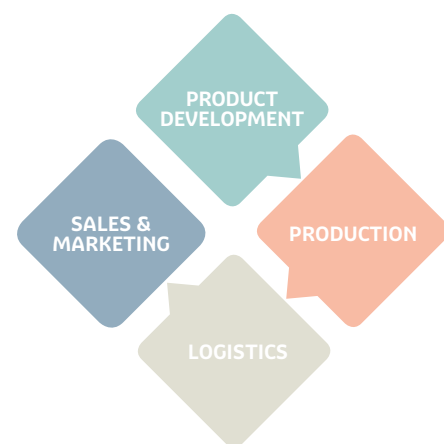

elhos succé vilar på fem stöttepelare. Vi erbjuder mer specialiteter. Vi levererar fler innovationer i ett brett stortiment. Vi är mer tillförlitliga. Vi ger mer stöd vid marknadsföring. Och vi ger mer hållbarhet. Vi gör det för oss själva, för våra kunder, för våra kunders kunder och – vad det gäller miljömässig hållbarhet – för världen runt omkring oss.

more sustainability

we like to be the most sustainable company in the market

UK We recycle plastic

Why should we make new plastic when we can recycle old plastic? 42% of our pots are made from recycled plastic. That percentage continues to grow year after year.

We conserve energy

By using natural sources such as daylight, outdoor air and our own wind turbine, we conserve copious amounts of energy. We have also invested in energy efficient, hybrid production machinery.

Our packaging is intelligent

We package our products as intelligent as possible. We use recycled and lighter bags. As much as 60% of our cardboard is made from recycled material and is obviously 100% recyclable.

We go further

Our sustainability performance is better in 2016 than it was in 2015. And in 2017 it will be even better. That's a promise.

DE Bei uns wird Kunststoff wiederverwertet

Warum sollen wir neuen Kunststoff herstellen, wenn wir gebrauchten Kunststoff wiederverwerten können? Unsere Pflanzgefäße bestehen zu 42% aus wiederverwertetem Kunststoff. Dieser Prozentsatz steigt Jahr um Jahr.

Wir sparen Energie

Durch die Verwendung natürlicher Quellen wie Tageslicht, frische Luft und unsere eigene Windmühle sparen wir reichlich Energie.

Wir haben auch in energiesparende hybride Produktionsmaschinen investiert.

Unsere Verpackungen sind intelligent

Wir verpacken ganz einfach noch intelligenter. Wir verwenden recycelte und leichtere Beutel. Sogar unsere Kartons bestehen aus 60% wiederverwertetem Material und ist natürlich zu 100% recycelbar.

Wir gehen einen schritt weiter

Unsere Leistungen im Bereich Nachhaltigkeit sind 2016 besser als 2015 und werden im Jahr 2017 noch besser sein. Das versprechen wir.

NL We hergebruiken kunststof

Waarom zouden we nieuw kunststof maken als we oud kunststof kunnen hergebruiken? 42% van onze potten bestaat uit hergebruikt kunststof. Dat percentage blijft jaar na jaar groeien.

We besparen energie

Door gebruik te maken van natuurlijke bronnen zoals daglicht, buitenlucht en onze eigen windmolen besparen we volop energie. We investeerden ook in energiebesparende hybride productiemachines.

Onze verpakkingen zijn slim

We verpakken gewoon nog slimmer. We gebruiken hergebruikte en lichtere zakken. Zelfs 60% van ons karton is gemaakt van hergebruikt materiaal en is natuurlijk 100% recyclebaar.

We gaan verder

Onze prestaties op het gebied van duurzaamheid zijn in 2016 beter dan in 2015. En in 2017 zijn ze nog beter. Beloofd.

SE Vi återanvänder plast

Varför tillverka ny plast när vi kan återanvända sådan som redan finns? 42% av våra krukor och behållare är gjorda av återvunnen plast. Den siffran ökar för varje år.

Vi tänker energisnålt

Genom att använda förnybara energikällor som dagsljus, luft och vårt eget vindkraftverk sparar vi massor av energi. Vi har också investerat i energisnåla hybridmaskiner för produktion.

Våra förpackningslösningar är smarta

Vi förpackar helt enkelt våra produkter på ett ännu smartare sätt genom att använda återvunnet och lätt material. Så mycket som 60% av våra pappförpackningar är tillverkade av återvunnet material och är förstås 100% återvinningsbara.

Vi förbättrar oss hela tiden

Våra resultat i hållbarhetsfrågor är bättre inför 2016 än de var inför 2015, och inför 2017 kommer de att vara ännu bättre. Det lovar vi.

ROTATIONAL MOULDING

The creation of complex, large and high-quality shapes is possible through rotational moulding. We use this technique for the exclusives collection.

BLOW MOULDING

Hollow shapes are created with blow moulding. That is why a number of elho watering cans and sprayers are produced using this technique.

INJECTION MOULDING

Injection moulding allows a wide variety of shapes to be created. The majority of elho's range is therefore produced using this technique.

REVOLUTIONARY WEATHER & UV-PROTECTION

UK One of the secrets to our success is our focus on synthetic. More specifically: we design and make products that bring out the best in synthetic. Anyone who sees our pots and other products knows immediately: they belong in synthetic.

And we still haven't mentioned the specific advantages of synthetic: lightweight, unbreakable, UV-resistant and not averse to frost. We add one more feature by using revolutionary colour pigments. This allows our products to retain their colour for longer.

DE Eines der Geheimnisse für unseren Erfolg ist unser Fokus auf Kunststoff. Genauer gesagt: wir entwerfen und produzieren Produkte, in denen Kunststoff am besten zur Geltung kommt. Wer unsere Pflanzgefäße und die anderen Produkte sieht, der weiß sofort: die müssen ganz einfach aus Kunststoff sein.

Ganz zu schweigen von den besonderen Vorteilen von Kunststoff. Geringes Gewicht, unverwundlich, UV- und frostbeständig. Und als ob dies nicht genug wäre, verwenden wir außerdem revolutionäre Farbpigmente. Dadurch bleiben unsere Produkte länger farbecht.

NL Één van de geheimen van ons succes is onze focus op kunststof. Specifieker: we ontwerpen en maken producten waarbij kunststof het best tot zijn recht komt. Wie onze potten en andere producten ziet, weet meteen: die horen gewoon in kunststof.

En dan hebben we het nog niet gehad over de specifieke voordelen van kunststof. Licht in gewicht, niet kapot te krijgen, bestand tegen UV en vorstbestendig. We doen er nog een schepje bovenop door revolutionaire kleurpigmenten te gebruiken. Daardoor blijven onze producten langer kleurecht.

SE En av hemligheterna bakom vår framgång är att vi fokuserar på plast. Vi utformar och tillverkar närmare bestämt produkter där plast kommer bäst till sin rätt. När man ser våra krukor och andra produkter inser man genast att de passar bäst i plast.

Och då har vi ändå inte räknat upp fördelarna med plast: De är lätta, går inte sönder, är UV-beständiga och tål frost. Utöver allt detta använder vi revolutionerande färgpigment som ökar färgbeständigheten på produkterna.

on top of trends

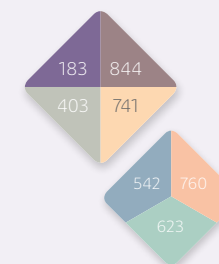

EQUALISE

Your own house is a place of serenity in a busy world. Unity creates a peaceful vibe both indoors and outdoors and should be seen as equally important. A sense of unity can be created by using various materials that match in colour and finishing and, which creates a friendly atmosphere. Colour and surface texture can give soft feminine materials a robust look and hard masculine materials an elegant look which creates a fresh entity.

Creating unity:

Soft shades, both romantic, feminine colours and masculine tones, create a unity when combined. A newcomer to this palette is soft purple that has an obvious connection to flowers.

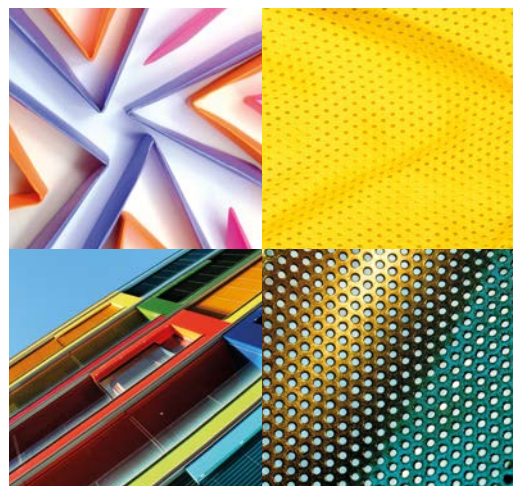

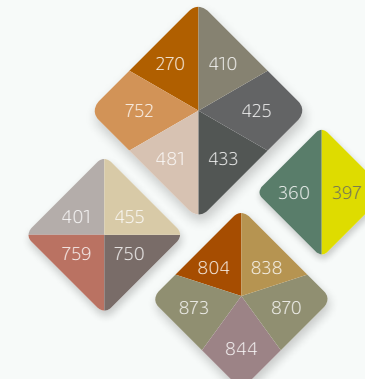

HARMONISE

Stimulating your senses and putting yourself first is typical of the trend harmony. We place our trust in nature which offers us safety and security, we surround ourselves with plants. These plants are increasingly important in and around the house they allow us to retreat and feel, smell and see nature. Natural robust materials, soothing colours and natural patterns create peace and harmony.

A harmonious palette:

Green is central in this colour scheme. Various shades of green inspired by natural and earth tones, create a sense of peace. These colours are suitable for any type of house as they bring nature close to home. The new colour leaf green is a representation of the natural colour.

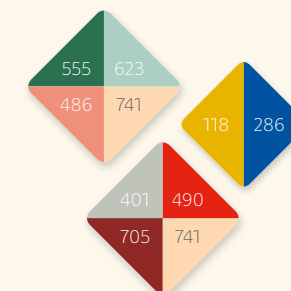

ENERGISE

By combining fresh green plants, robust flower shapes and smooth materials with bright colours in your living environment you create an energising yet relaxing vibe. A place that makes us feel fit, strong and cheerful. This means that plants and flowers take on the task of creating energy, instead of just contributing to the atmosphere. The function of the plant in purging oxygen, becomes central and is reinforced by functional materials with an energetic look: smooth, geometrical and modern.

Bold colours:

Typical of this trend is the combination of a bright colour with a lighter tone from the same colour group. These colours reinforce each other and create a powerful, fresh and energetic look. Important newcomers are the colours peach and jade green. These bright colours enhance each other and can be paired perfectly with mint and nude.

ALLURE

UK With just one look at the new elho collection allure you will be seduced by its natural beauty. The powerful and stylish blend of synthetics with wood fiber will surprise you with its warmth of touch and colour. The elegant pots from the allure collection are true eye catchers and additionally have a natural feel.

NL In een oogopslag verleidt de elho collectie allure je met haar natuurlijke schoonheid. De krachtige en stijlvolle blend van kunststof en houtvezel verrast je met haar warmte in gevoel en kleur. De elegante collectie van allure zijn echte eye catchers en voelen ook nog eens heel natuurlijk aan.

DE Mit nur einem Blick auf die neue Kollektion von allure werden Sie von ihrer natürlichen Schönheit begeistert sein. Der kräftige und stilvolle Mix aus Kunststoff und Holzfasern wird Sie mit seiner Wärme als auch durch sein Modell und seine Farbe überraschen. Die eleganten Töpfe aus der allure Kollektion sind wahre Blickfänger und fühlen sich natürlich an.

SE Den nya kollektionen allure från elho förför redan vid första ögonkastet med sin naturliga skönhet. Den kraftfulla och stilfulla blandningen av syntetmaterial och träfiber överraskar med sin värme både i känsla och färg. De eleganta krukorna i allure-kollektionen är attraktiva blickfång och skapar även en naturlig känsla.
